ABOUT US

Welcome to Makhubu Civil, a competitive name in the field of civil engineering. With over 22 years of operational excellence and thriving success, we have built a strong reputation as a reliable and innovative player in the industry. Our unwavering commitment to quality and expertise has propelled us to the forefront of civil engineering solutions in South Africa.

Under the visionary leadership of our managing member, who brings an impressive 40 years of experience to the table, Makhubu Civil cc has consistently delivered outstanding results. Our dedicated team of over 8 skilled professionals is passionate about pushing the boundaries of engineering and creating sustainable solutions that transform and improve communities.

Our Journey

Throughout our illustrious journey, we have successfully completed over R500 million in projects, showcasing our ability to handle projects of varying complexities and scales. From infrastructure development to construction management, we excel in a wide range of civil engineering disciplines, ensuring that every project is executed with precision and adherence to the highest industry standards.

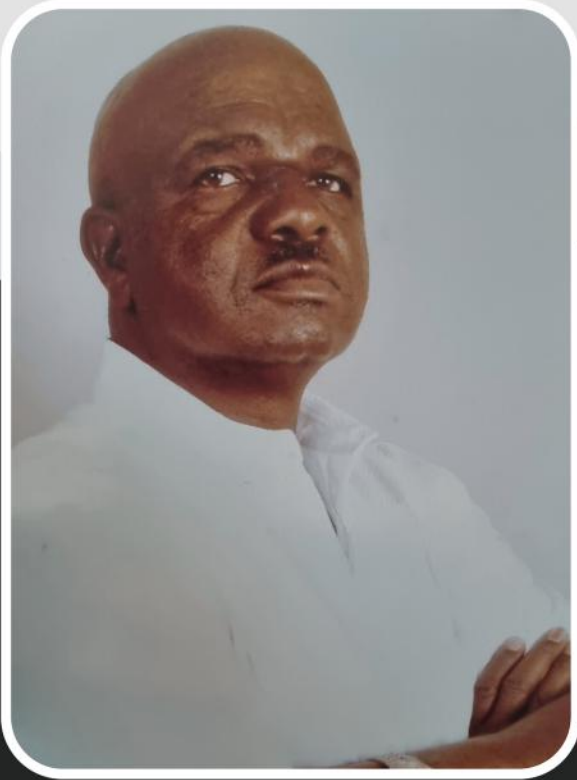

At Makhubu Civil, we take pride in our client-centric approach, working closely with our valued partners to understand their unique needs and deliver tailored solutions that exceed expectations. Our commitment to safety, efficiency, and environmental sustainability sets us apart, making us the preferred choice for discerning clients seeking excellence in every aspect of their projects.

Explore the world of possibilities with Makhubu Civil, where expertise meets innovation, and together, we build a better future.

Contact us today to discuss how we can contribute to your next project.

Other Key Personnel

Makhubu Civil boasts a team of highly skilled and dedicated key personnel who are instrumental in delivering exceptional civil engineering services. Our team includes **experienced civil engineers** who provide technical expertise in various disciplines. **Accomplished contract managers** ensure seamless coordination, timely delivery, and effective communication. **Diligent site managers and supervisors** oversee on-site operations, ensuring efficient progress and adherence to safety protocols. **Quantity surveyors** ensure cost-effective project management, while surveyors provide accurate measurements and mapping. **Safety officers** prioritize the well-being of all stakeholders, while **procurement specialists** secure quality materials. Our team stands ready to tackle any civil engineering challenge with professionalism and excellence.

OUR MISSION

At Makhubu Civil cc, our vision is to be the foremost industry leader in civil engineering, leveraging our years of operational excellence in South Africa. We aspire to expand our footprint across neighbouring countries, establishing a strong presence and contributing to the development of a vibrant African infrastructure landscape.

With a commitment to continuous growth, we aim to diversify our expertise into other construction fields, embracing innovation and delivering exceptional solutions that shape the future of our industry. Through our unwavering dedication to quality, sustainability, and client satisfaction, we strive to set new benchmarks and create lasting impact throughout Africa and beyond.

OUR SERVICES

Makhubu Civil delivers comprehensive services to cater to diverse infrastructure needs. Our offerings encompass project planning, design, construction, and management. We specialize in site investigation and surveying to ensure accurate project assessment.

Our expertise extends to earthworks, grading, and excavation, along with the construction of bulk pipelines, sewerage, and water systems. We excel in structural engineering, adeptly constructing buildings, bridges, and other vital structures. Additionally, we have extensive experience in the development and maintenance of reservoirs and stormwater drainage systems.

With our deep industry knowledge, skilled professionals, and commitment to quality, we provide innovative and sustainable solutions to meet the evolving demands of South Africa's infrastructure landscape.

RESOURCES AND PLANT

We possess a robust fleet of machinery and equipment, including excavators, bulldozers, graders, and specialized vehicles, enabling us to efficiently carry out earthworks, grading, and excavation tasks. Our well-maintained plant ensures optimal performance, productivity, and adherence to project timelines.

Furthermore, our extensive network of suppliers and strategic partnerships enables us to access high-quality construction materials and resources, ensuring the delivery of durable and sustainable infrastructure solutions. With our strong resource base and cutting-edge plant, we are fully equipped to tackle projects of varying complexities and scales, consistently delivering superior results for our clients.

WHY CHOOSE US ?

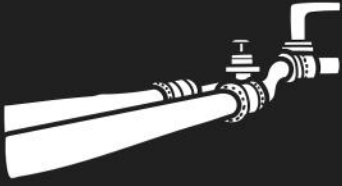

Construction management is a vital aspect of the services provided by a civil engineering company. It involves the coordination, planning, and supervision of all construction activities throughout a project's lifecycle. Makhubu Civil excels in construction management, ensuring seamless execution and successful project delivery.

Our experienced construction management team takes charge of organizing and overseeing various project elements, including labor, materials, equipment, and timelines. They develop comprehensive project plans, defining objectives, setting milestones, and allocating resources effectively. Through meticulous scheduling and monitoring, they ensure efficient progress and adherence to project timelines.

Dept. of Transport KZN	Nankhoo Associates	Kwadayigubo (Mvoti River Bridge)	R 7,505,769,00	2014

OUR COMPETENCIES

Water & Sanitation

We specialise in water and sanitation projects, providing comprehensive solutions for water supply, sewerage systems, and wastewater treatment. With expertise in design, construction, and management, we ensure reliable and sustainable water infrastructure, promoting public health and environmental protection.

Bulk Earthworks & Structures

We excel in bulk earthworks, efficiently moving and shaping large quantities of soil and rock to prepare sites for construction. Our expertise extends to constructing durable structures, ensuring their stability and functionality through meticulous design and construction techniques. Trust us for reliable and robust earthworks and structures.

Road Construction & Rehabilitation

Our team specializes in the planning, design, and construction of roads, highways, and pavements. With a focus on quality and durability, we ensure safe and efficient transportation infrastructure that withstands the test of time.
